

UM-SJTU JI Presents Entrepreneurship Week from Sept 4-7 in Shanghai- details at <http://umji.sjtu.edu.cn/entrepreneurship/index.html>

Session: Artificial Intelligence (AI) Technology Commercialization

Date: 4th Sept. (Day-1) Afternoon

Duration: 90 Minutes

Research on artificial intelligence (AI) has made important progress and developed powerful transformative technologies that make possible novel products, tools and services. This AI session will cover a diverse sample of exciting applications of AI techniques. The speakers, who are experts working in start-ups in China, will provide you an up-to-date overview of the on-going work about how AI is used to produce innovative and high-impact products.

The speakers in this session will be:

(Chair) **Dr. Paul Weng**, Assistant Professor, UM-SJTU JI [CHINA]

Dr. Zongchang Liu, CTO CyberInsight [CHINA]

Dr. Jianyu Chen, CEO Anyhelper [CHINA]

Dr. Gary Overett, Chief Scientist-Autonomous Driving, Xiaopeng [CHINA]

Dr. Hao Huang, Medical Industry Manager, YITU [CHINA]
